

PRESTIGE PROMOTIONS

OCTOBER 3RD - 15TH 2019

A hosted safari for a maximum of 8 guests.

Three great wildlife destinations, each 4 night section hosted by a leading local celebrity.

YOUR ADVENTURE BEGINS AT...

Ekorian's Mugie Camp in Laikipia

The Laikipia plateau is one of Kenya's biggest stretches of wilderness with more than two million acres of private ranch land. As a result, the area has become one of the finest wildlife destinations in East Africa.

On a drive you'll see incredible herds of antelope, buffalo, and elephant, as well as rarer species such as wild dog, reticulated giraffe and Grevy's zebra!

You'll be spending four nights at Ekorian's Mugie Camp, which offers you the freedom to rekindle the soulful relationship we each have with the wild. The camp's innovative design is eco-friendly and blends into its environment, enabling you to feel immersed in the vivid details that surround you - the sights, the sounds, the smells. I greatly encourage you to watch this spectacular video of the camp itself to truly understand the beauty (https://youtu.be/xnWzp_2IF3A).

WITH YOUR FIRST HOST...

Photographer Paul Joynson Hicks MBE

This incredibly talented photographer, who founded the Comedy Wildlife Photographer Awards, will be giving you exclusive and intimate lessons so that your photos might look just as good as his, as featured below.

Paul has lived and worked as a photographer in East Africa for more than 20 years. He is hugely passionate about the region, its people and of course its wildlife. Paul hugely enjoys taking people into the wild areas of East Africa and teaching about wildlife photography as well as having a wealth of knowledge about the region in general.

If you'd like to see Paul in action, please have a watch of this <https://youtu.be/vQRZwAMbh4k>.

YOUR NEXT STOP FOR FOUR NIGHTS IS...

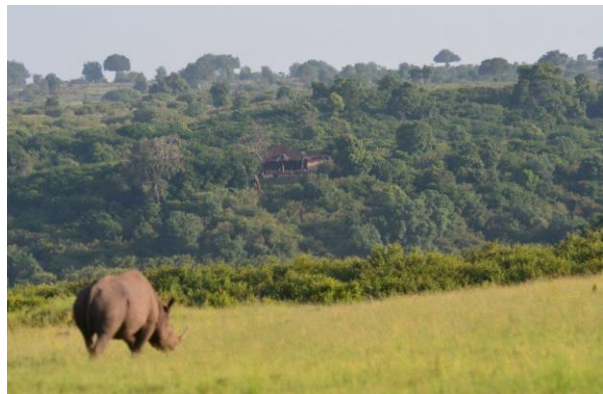

Tanguila Camp in the Masai Mara

Tanguila Camp is a traditional safari camp built on a rocky hill with a thatched and open fronted building, overlooking the Olotulo Murt Salt Lick, frequented by wildlife, and which leads down to the Mara River.

Situated on private land on the western boundary of the Mara Reserve, allowing easy access to game drive around the Musiara Marsh, the short grass plains, and Rhino Ridge, in the Reserve; or across the Mara River bridge into the Mara Triangle west of the river.

Both areas have rich biodiversity and offer prime birdlife, plains game and big cat viewing; and, during the migration, ready access to some of the main river-crossing places.

WITH YOUR SECOND HOST...

Jackson Looseyia - BBC Big Cat Live's only Masai presenter, conservationist and Kenya's top safari guide

Jackson Ole Looseyia is one of the best wildlife guides in Africa. He grew up surrounded by wildlife and from an early age found it a source of inspiration. Tracking animals is in his blood – he comes from a long line of hunters & trackers.

He has an extraordinary life-story. After spending his childhood hunting illegally, the arrest and then death of his father and the responsibility of his family handed down to him, Jackson went on to become one of the first guides of the Masai Mara. Jackson is a true ambassador, expressing modern conservation ideas to Maasai communities and explaining Maasai values to travellers, always with eloquence and humour!

His love of all creatures, his respect for nature and his Maasai traditions make Jackson an exceptional safari guide. He knows every mound, bush and river. Little wonder that he was brought in to enhance the popular BBC series 'Big Cat Live'. Olive and her leopard family were even named after him – 'The Jackson Five'.

YOUR NEXT STOP FOR FOUR NIGHTS IS...

Mike's Camp on Kiwayu Island

Kiwayu Island is one of the many unspoilt, idyllic islands of the Lamu Archipelago, on the Kenya Coast. Mike's Camp is home for the next four nights and is probably the only Robinson Crusoe Lodge in Kenya and is hours away from 21st Century life! Mike's is an Eco Camp where water is brought by donkey and power comes from the wind and the sun. The seven private and spacious bandas are set amongst the sand dunes, with panoramic views. The island offers one of the only beaches in Kenya on which you can walk for miles without seeing a single soul.

WITH YOUR FINAL HOST...

"The Fearless Chef" Kiran Jethwa

Kiran's 'Tales from the Bush Larder' with Fox International, is an award winning television series and has successfully aired a three season run. It was set and shot across the African continent and viewed in over 60 countries through Fox's vast platform headlining on Nat Geo People.

He is the Chef and owner of one of Nairobi's premier restaurant companies, Seven Restaurants Ltd. In a 4 year span the restaurants have become the most popular eating destinations for the cosmopolitan Kenyan capital.

Learn how to cook in the wild, catching buying and preparing exquisite delicacies with African and Indian influences! You'll be catching mud and mangrove crabs, clam and oyster harvesting! Round lining for snapper, and trawling for grouper.

Don't worry if you don't like fish or seafood – there's plenty of chicken, steak and pasta too!

Here he is in action! <https://vimeo.com/104863592>
